

FEATURE • MATRIX

Freemium & Premium • Starter • Standard • Power • Enterprise

WHAT THIS DOCUMENT IS

A single source of truth for what is included in each youResto package. Starter, Standard and Power are **cumulative** — each tier includes everything from the tier below plus the additions shown. **Enterprise** is a custom, quote-on-request plan above Power; items tagged ENTERPRISE are reserved for it. Add-ons are sold separately on any tier (including Freemium) and are listed after the matrix.

LEGEND ✓ Included • — Not included • Text = feature scope at that tier • “+” builds on previous tier • ENTERPRISE = reserved for the custom Enterprise plan above Power • Add-ons listed after the matrix					
FEATURE	WHAT IT DOES	FREEMIUM <i>Free</i>	STARTER <i>Premium • 1–2 outlets</i>	STANDARD <i>Premium • 3–8 outlets</i>	POWER <i>Premium • 9+ outlets</i>

Paid Add-Ons

SOLD MODULARLY • ACTIVATE ON ANY TIER

The following modules are sold separately. Any tier including Freemium can purchase add-ons. Activation typically takes 24–48 hours. Items marked **ENTERPRISE** -availability are part of the custom Enterprise plan.

PAID ADD-ON	WHAT IT DOES	AVAILABILITY
youMarketing (WABA) <i>WhatsApp Business API (per outlet)</i>	Reservation & order confirmations, delivery status updates, targeted promotions to segmented guest lists, 2-way guest support, built-in consent tracking.	Any tier
youInsight <i>AI-powered reporting</i>	Natural-language queries, predictive demand & prep-volume forecasting, menu-mix optimisation, dish-level margin alerts, peak-hour labour scheduling, cross-outlet benchmarking.	Any tier
youWorkflows <i>No-code automations</i>	Trigger-based automations across youResto: low-stock auto-reorder, shift-change alerts, aggregator-pause workflows, escalation routing, custom guest journeys.	Add-on for Standard & Power
QR Guest Ordering <i>Branded guest app + closed-loop digital wallet</i>	Branded guest app for table-side QR ordering plus a closed-loop digital wallet that keeps prepaid balances within your brand's ecosystem. Guests scan, order, and pay on their own phone — with your branding, your loyalty, your menu.	Any tier
KDS Stations <i>Kitchen display station</i>	Additional kitchen display screens for order routing and prep coordination. Standard tier merchants buy stations as add-ons; Power includes 2 stations and supports unlimited expansion via add-ons.	Any tier
youLens (AI Camera) <i>Kitchen & dining video intelligence (per outlet)</i>	Kitchen hygiene & food-safety alerts, table dwell-time analytics, queue-length tracking, back-of-house productivity & incident detection.	Any tier
youLend <i>Embedded merchant finance</i>	Pre-approved credit offers based on live transaction volume, flat interest rate based on loan amount & tenure, fully white-labelled, end-to-end KYC and disbursement.	Any tier
youAccounts <i>Full accounting module</i>	Bank reconciliation, P&L & balance sheet, supplier / vendor management, audit-ready records.	Add-on for Starter & Standard. Bundled in Power
Own Branded Delivery App <i>Direct-order channel (merchant-level pricing)</i>	Fully branded guest ordering app with zone-based delivery, real-time driver tracking, direct loyalty, zero commission on direct orders.	Add-on for Standard. Bundled in Power
3rd-Party Delivery Fleets <i>On-demand fleet dispatch (merchant-level pricing)</i>	Dispatch to partner delivery networks (region-specific) with smart routing based on cost, ETA & availability, auto-fallback when own drivers are busy.	Add-on for Standard & Power
Social Ordering <i>Facebook, Instagram, WhatsApp</i>	Orders via own website and social channels (Facebook, Instagram, WhatsApp). Unified with KDS and kitchen workflow.	Add-on for Standard. Bundled in Power
Guest Base Pack <i>+500 guest CRM records (merchant-level pricing)</i>	Extend your guest database beyond the tier limit. Stackable — buy multiple packs as your guest base grows.	Any tier
API & Webhook Access <i>Custom integrations (merchant-level pricing)</i>	Full REST API access plus outbound webhooks to integrate youResto with your own systems, hotel PMS, accounting, or partner platforms. OpenAPI docs and sandbox included.	Enterprise

Notes & Clarifications

HOW TO READ THIS MATRIX

youcloud • youResto Platform • Internal & Partner Reference • STRICTLY PRIVATE & CONFIDENTIAL

- **Freemium** is a self-serve, zero-cost entry tier. Limits on outlets, users, menu items, bills / month and guest records are enforced by the platform. Operators are prompted to upgrade when they hit a limit.
- **Starter, Standard and Power** are Premium packages with incremental, cumulative scope. “+” on a feature row means the tier includes everything from the tier to its left, plus the listed additions.
- **Enterprise** is a custom, quote-on-request plan that sits above Power. Items tagged **ENTERPRISE** in the matrix are reserved for it — central kitchen & full menu engineering, franchise / chain governance & policy controls, SSO (corporate IdP) & API key rotation, the merchant's own branded guest app (white-label), and REST API & webhook access. Enterprise bundles every module with unlimited outlets, menu items, staff & guests. See the youResto Enterprise brief for the full inclusions.
- **youAccounts** and **youHR** (Full payroll + statutory + service-charge pooling) are bundled as standard in **Power**. Standard has a lighter Basic Auto-Ledger built in (which includes aggregator settlement reconciliation — critical for F&B). Starter has none natively.
- **Own Branded Delivery App**, **3rd-Party Delivery Fleets**, and **Social Ordering** are add-ons for Standard and bundled as standard in Power. Not available for Starter or Freemium.
- **Aggregator relationships** (region-specific in-country platforms) must be brought by the merchant; youResto provides the integration layer only. Each paid tier includes a set number of integration slots: 1 connector at Starter, 2 at Standard, 3 at Power with full unified KDS, 86-sync and commission reporting.
- **Hardware bundles** include the matching software tier free for 12 months from activation. Year 2 onwards, annual subscription renews at list rate. Hardware shipping, warranty terms and on-site installation availability vary by country.
- Any tier including Freemium can purchase **add-ons**. Activation typically takes 24–48 hours.
- The **Guest Base Pack** (+500 guest CRM records) is stackable and can be purchased on any tier to extend the guest CRM beyond the tier limit.
- **Card payment availability** is country-specific and should be confirmed with your representative before purchase.
- **Payment methods** (wallet, card) attract bank charges that apply extra per transaction. Bank charges should be confirmed by merchant before placing order.
- **Localization**: This generic master is inherited by country editions (India, UAE, Sri Lanka, etc.), which overlay local payment rails, aggregator brands, tax fields, and currency.
- This matrix reflects current commercial policy. Future features and revisions will be versioned.
