

FEATURE • MATRIX

Freemium & Premium • Starter • Standard • Power • Enterprise

WHAT THIS DOCUMENT IS

A single source of truth for what is included in each youShop package. Starter, Standard and Power are **cumulative** — each tier includes everything from the tier below plus the additions shown. **Enterprise** is a custom, quote-on-request plan above Power; items tagged ENTERPRISE are reserved for it. Add-ons are sold separately on any tier (including Freemium) and are listed after the matrix.

LEGEND ✓ Included • — Not included • Text = feature scope at that tier • “+” builds on previous tier • ENTERPRISE = reserved for the custom Enterprise plan above Power • Add-ons listed after the matrix					
FEATURE	WHAT IT DOES	FREEMIUM <i>Free</i>	STARTER <i>Premium • 1–2 stores</i>	STANDARD <i>Premium • 3–8 stores</i>	POWER <i>Premium • 9+ stores</i>

Paid Add-Ons

SOLD MODULARLY · ACTIVATE ON ANY TIER

The following modules are sold separately. Any tier including Freemium can purchase add-ons. Activation typically takes 24–48 hours. Items marked **ENTERPRISE** -availability are part of the custom Enterprise plan.

PAID ADD-ON	WHAT IT DOES	AVAILABILITY
youMarketing (WABA) <i>WhatsApp Business API (per store)</i>	Order & delivery confirmations, targeted promotions to segmented customer lists, 2-way support, built-in consent tracking, abandoned-cart and post-purchase nudges.	Any tier
youInsight <i>AI-powered reporting</i>	Natural-language queries, predictive demand forecasting, SKU-mix optimisation, margin alerts, peak-hour labour scheduling, cross-store benchmarking, anomaly detection.	Any tier
youWorkflows <i>No-code automations</i>	Trigger-based automations: low-stock auto-reorder, supplier escalations, return-flagging workflows, custom approval routing, end-of-day reconciliation rules.	Add-on for Standard & Power
QR Guest Ordering <i>Branded in-store self-checkout</i>	In-store QR self-checkout: customers scan items on their phone and pay through your branded flow — closed-loop digital wallet, loyalty earned at checkout, queue-free shopping.	Any tier
youLens (AI Camera) <i>Store video intelligence (per store)</i>	Shrinkage and theft alerts, footfall heatmaps, queue-length tracking, staff productivity monitoring, incident detection — all stream into the same dashboard as POS data.	Any tier
youLend <i>Embedded merchant finance</i>	Pre-approved credit offers based on live transaction volume, flat interest rate based on loan amount & tenure, fully white-labelled, end-to-end KYC and disbursement.	Any tier
youAccounts <i>Full accounting module</i>	Bank reconciliation, P&L & balance sheet, supplier / vendor management, audit-ready records, integrated with sales auto-ledger.	Add-on for Starter & Standard. Bundled in Power
WebShop <i>Branded online storefront (merchant-level pricing)</i>	Branded web storefront with unified inventory across all channels (in-store, web, social, marketplaces). SEO meta, product image sync, channel-level reporting.	Add-on for Standard. Bundled in Power
Social Selling <i>Facebook, Instagram, WhatsApp Catalog</i>	Sell on Facebook Shop, Instagram Shopping & WhatsApp Catalog with unified inventory and one-click product publishing. Orders flow into the same fulfilment workflow as in-store.	Add-on for Standard. Bundled in Power
3rd-Party Logistics <i>Last-mile dispatch (merchant-level pricing)</i>	Dispatch to partner delivery networks (region-specific) with smart routing based on cost, ETA & availability, auto-fallback when first-choice partner is busy.	Add-on for Standard & Power
Customer Base Pack <i>+500 customer CRM records (merchant-level pricing)</i>	Extend your customer database beyond the tier limit. Stackable — buy multiple packs as your customer base grows.	Any tier
API & Webhook Access <i>Custom integrations (merchant-level pricing)</i>	Full REST API access plus outbound webhooks to integrate youShop with your own systems, ERP, accounting, or partner platforms. OpenAPI docs and sandbox included.	Enterprise

Notes & Clarifications

HOW TO READ THIS MATRIX

youcloud · youShop Platform · Internal & Partner Reference · STRICTLY PRIVATE & CONFIDENTIAL

- **Freemium** is a self-serve, zero-cost entry tier. Limits on stores, users, SKUs, invoices / month and customer records are enforced by the platform. Operators are prompted to upgrade when they hit a limit.
- **Starter, Standard and Power** are Premium packages with incremental, cumulative scope. "+" on a feature row means the tier includes everything from the tier to its left, plus the listed additions.
- **Enterprise** is a custom, quote-on-request plan that sits above Power. Items tagged **ENTERPRISE** in the matrix are reserved for it — franchise / chain management & policy controls, SSO (corporate IDP) & API key rotation, the merchant's own branded storefront (white-label), and REST API & webhook access. Enterprise bundles every module with unlimited stores, SKUs, staff & customers. See the youShop Enterprise brief for the full inclusions.
- **youAccounts** and **youHR** are bundled as standard in **Power**. Standard has a lighter Basic Auto-Ledger built in (auto sales-entries, tax / VAT / GST reports, AI OCR for receipts). Starter has none natively.
- **WebShop** and **Social Selling** are add-ons for Standard and bundled as standard in Power. Not available for Starter or Freemium. The youcloud storefront and unified inventory across channels are included in Power; the merchant's own branded (white-label) storefront is reserved for Enterprise.
- **Marketplace integrations** (region-specific in-country platforms) must be brought by the merchant; youShop provides the integration layer only. Each paid tier includes a set number of integration slots: 1 connector at Standard, 2 at Power with unified inventory and channel-level reporting.
- **Hardware bundles** include the matching software tier free for 12 months from activation. Year 2 onwards, annual subscription renews at list rate. Hardware shipping, warranty terms and on-site installation availability vary by country.
- Any tier including Freemium can purchase **add-ons**. Activation typically takes 24–48 hours.
- The **Customer Base Pack** (+500 customer CRM records) is stackable and can be purchased on any tier to extend the customer CRM beyond the tier limit.
- **Card payment availability** is country-specific and should be confirmed with your representative before purchase.
- **Payment methods** (wallet, card) attract bank charges that apply extra per transaction. Bank charges should be confirmed by merchant before placing order.
- **Localization:** This generic master is inherited by country editions (India, UAE, Sri Lanka, etc.), which overlay local payment rails, marketplace brands, tax fields, and currency.
- This matrix reflects current commercial policy. Future features and revisions will be versioned.
