

YOUQR

FEATURE · MATRIX

Freemium & Premium · Starter · Standard · Power

WHAT THIS DOCUMENT IS

A single source of truth for what is included in each youQR package. Starter, Standard and Power are **cumulative** — each tier includes everything from the tier below plus the additions shown. Add-ons are sold separately on any tier (including Freemium) and are listed after the matrix.

LEGEND ✓ Included · — Not included · Text = feature scope at that tier · "+" builds on previous tier · Add-ons listed after the matrix

FEATURE	WHAT IT DOES	FREEMIUM <i>Free</i>	STARTER <i>Premium · 1–2 outlets</i>	STANDARD <i>Premium · 3–8 outlets</i>	POWER <i>Premium · 9+ outlets</i>
CORE SERVICE & ORDERING					
Menu Items	<i>Items live on the QR ordering surface</i>	25 menu items	100 menu items	500 menu items	Unlimited items
Orders / Month	<i>Monthly transaction volume cap</i>	100 orders / month	500 orders / month	2,500 orders / month	Unlimited orders
Number of Outlets	<i>Locations supported per account</i>	1	1–2	3–8	9+ / Unlimited
Order Modes	<i>Table · counter · pickup</i>	1 mode	1 mode	All modes	All modes + custom
BRANDING					
Customer-Facing Branding	<i>Look & feel of the QR ordering surface</i>	youcloud-branded	youcloud-branded	youcloud-branded	Fully white-labelled + custom domain + theme
PAYMENTS (YOUPAY)					
Payment Methods	<i>Accepted tender types at checkout</i>	QR + Pay-by-Link	QR + Pay-by-Link	+ Mobile Wallets	+ Cards + Split payments + Gift cards
SVA / Stored Value Wallet	<i>Closed-loop prepaid balance for customers</i>	—	—	—	Top-up + Spend + Cashback rules + Tiered loyalty + Gift cards
Auto-Reconciliation	<i>Match settlements to ordering ledger</i>	—	✓	✓	✓
LOYALTY ENGINE					
Programme-Wide Loyalty	<i>Network-level rewards (always included)</i>	✓	✓	✓	✓

Multi-Outlet Dashboard	<i>Centralised view across outlets</i>	—	Basic (1–2 outlets)	Full central dashboard + RBAC	+ Group reporting + Policy controls
API & Webhook Access	<i>Custom integrations to partner systems</i>	—	—	—	Full REST API + Webhooks
Co-existence with youShop / youResto	<i>Shared data layer when co-deployed</i>	—	—	Shared customer + loyalty	Shared everything (customer, loyalty, inventory, accounting)
SECURITY & ACCESS CONTROLS					
Authentication & Access	<i>MFA, RBAC, audit logs</i>	Standard security	+ MFA	+ Role-based access control	+ RBAC + audit logs
SUPPORT & SUCCESS					
Customer Support	<i>Channels, response times, SLA</i>	Self-service only	Standard Support Email + chat 24hr response Business hours	Priority Support Email + chat + phone 4hr response Extended hours	Named support agent 24/7 phone support SLA-backed 1hr response Quarterly business reviews

Paid Add-Ons

SOLD MODULARLY · ACTIVATE ON ANY TIER

The following modules are sold separately. Any tier including Freemium can purchase add-ons. Activation typically takes 24–48 hours.

PAID ADD-ON	WHAT IT DOES	AVAILABILITY
youMarketing (WABA) <i>WhatsApp Business API</i>	WhatsApp order confirmations, abandoned-cart recovery, segmented promotions, loyalty alerts, two-way customer support. Subject to Meta WABA terms and territory availability.	Any tier
youInsight <i>AI-powered reporting</i>	Natural-language queries on youQR data, predictive demand forecasting, peak-hour staffing recommendations, scan-to-purchase conversion analytics, portfolio-wide intelligence for multi-merchant partners.	Any tier
youLend <i>Embedded merchant finance</i>	Pre-approved working capital scored on youQR transaction signals — sales velocity, repeat customers, payment reliability — surfaced in the merchant dashboard. Revenue-based repayment.	Any tier
youWorkflows <i>AI process automation</i>	Trigger-based AI automation — low-stock threshold alerts, customer journey campaigns, escalation routing, configurable exception rules on transaction anomalies and KPI breaches.	Add-on for Standard & Power
youLens <i>AI camera · counter & queue intelligence (per outlet)</i>	Counter dwell-time, queue-length analytics, peak-period coverage monitoring for high-volume QR sites. Requires compatible IP camera hardware; subject to local data privacy / CCTV regulations.	Add-on for Standard & Power
Merchant-Specific Loyalty <i>Branded loyalty layer</i>	Adds a merchant-branded loyalty programme on top of the included programme-wide loyalty — separate points, separate rules, separate rewards.	Add-on for Freemium / Starter / Standard. Bundled in Power
Self-Ordering Kiosk Mode <i>Full-screen self-service</i>	Software profile that converts the youQR ordering surface into a full-screen self-service kiosk for high-volume QSR and food-court counters. Hardware sold separately.	Add-on for Standard & Power
KDS Stations <i>Kitchen display licences</i>	Additional kitchen display screen licences for order routing and prep coordination. Standard includes 1 station; Power includes 2. Hardware purchased separately.	Add-on for Standard & Power
Order Volume Pack <i>Volume expansion (merchant-level pricing)</i>	Stackable expansion of monthly order volume beyond tier limit. Pack sizes are quoted in commercial discussions; buy multiple packs as volume grows.	Any tier
Customer Base Pack <i>Profile expansion (merchant-level pricing)</i>	Stackable expansion of customer profile capacity beyond tier limit. Pack sizes are quoted in commercial discussions; buy multiple packs as customer base grows.	Any tier

Notes & Clarifications

HOW TO READ THIS MATRIX

- **Freemium** is a self-serve, zero-cost entry tier. Limits on outlets, menu items, orders / month and customer profiles are enforced by the platform. Merchants are prompted to upgrade when they hit a limit.
- **Starter, Standard and Power** are Premium packages with incremental, cumulative scope. "+" on a feature row means the tier includes everything from the tier to its left, plus the listed additions.
- **Customer-facing branding** is youcloud-branded by default at Freemium, Starter, and Standard tiers — the ordering surface, receipts, and notifications carry the youcloud mark. Only Power supports a fully white-labelled experience with a custom domain and theme.
- **Payment methods.** Freemium and Starter accept QR + Pay-by-Link. Standard adds Mobile Wallets. Power adds Cards plus Split payments and Gift cards via SVA.
- **SVA / Stored Value Wallet** is a Power-tier capability only. Lower tiers transact via the supported acceptance channels at their tier.
- **Loyalty.** Programme-wide loyalty (the partner's network-level rewards programme) is included at every tier. Merchant-specific loyalty (per-merchant points, campaigns, tiers) is an add-on for Freemium / Starter / Standard and bundled in Power.
- **KDS hardware.** KDS entitlements at each tier are software licences only. Physical KDS hardware — displays, mounts, controllers — must be purchased separately and is not included in the youQR software licence.
- **Co-deployment.** youQR can be deployed standalone or alongside youShop / youResto. At Power tier, customer profiles, loyalty balances, SVA balances, and inventory are shared automatically — no integration required, no parallel datasets.
- **Platform continuity.** Every youQR transaction flows through the same youPay engine and data layer as the rest of the youcloud portfolio — feeding youInsight reporting, youLend credit scoring, and (on Power) the SVA wallet without additional integration.
- **Card payment availability** is country-specific; payment methods (wallet, card) attract per-transaction bank charges. Both should be confirmed by the merchant before placing an order. **Localization:** This generic master is inherited by country editions (India, UAE, Sri Lanka, etc.), which overlay local payment rails, tax fields, and currency. Future features and revisions will be versioned.
